

Solutions for the automotive industry from Distrupol

Innovative polymers, unrivalled technical expertise and logistical excellence to meet the increasing demands of the automotive industry.

Distrupol has an incredible range of plastic materials, giving you solutions for any requirement. Our world-class suppliers include Celanese, INEOS, Lucite International, HEXPOL TPE, CHIMEI and more. We also have a range of polymer modifiers and additive masterbatches, providing innovative solutions for both electric and combustion engine vehicles.

We can technically support our range of materials, assisting you with design, material selection, mould flow simulation, performance requirements and sampling, right through to fully optimised production.

We guarantee total quality, certification, traceability, confidence and logistical excellence.

Distrupol Automotive:

- Colour solutions
- Low emissions for interiors
- Low noise solutions
- Low wear / low friction
- Flexible solutions
- Sustainable material solutions
- Metal replacement
- High gloss solutions
- High heat solutions
- Enhancing scratch / scuff resistance
- Low wear / low friction solutions
- Adhesives and polymer coatings
- Wire and cable solutions
- Zero halogen flame retardant solutions
- Enhancing toughness
- Clear material solutions
- Low gloss solutions / textures
- PVC and rubber replacement
- Electric vehicle solutions
